It's fun to bring plant, bird, star, and wildlife identification books. We have a wide variety of wildlife and plants in the area you may not have at home. The stars are quite bright at night as there are not any lights in the Park, making it easy to find various planets and constellations. If you're lucky, you can see the northern lights!

Foil and/or saran wrap, paper plates, plastic glasses, and paper towels make fewer dishes to wash.

Towels, toys, and chairs for the beach. Rafts, beach balls, sand toys, and any type of outside games are great. The deck chairs supplied are the stacking plastic type; some people prefer the lounging ones for the beach.

DVDs if renting a Sunseeker, Voyagaire, or Luxury houseboat (there is no TV reception).

Your boat has a generator. You may want to bring a battery charger for your camera or cell phone. Cell phones will work in some areas. CPAP machines are also becoming more common. If you require one while on your houseboat, please call us for more details on battery packs we have available for rent.

Radios such as XM and Sirius are fun to bring. However, they put a heavy burden on your houseboat batteries and will require you to give additional time to the charging system on board. Alternatively, you can bring a bluetooth speaker.

Current vaccination records if bringing your pet into Canada.

We require a credit card on file for incidentals.
